4. Buku Tulis

Diary Book is radiated by 38 rays of world lights. It is covered by white atmosphere full of so many scientific materials; physical, chemical, biological, mathematical, and geophysical materials. For your information, there is a blue sea in the middle. The shape is rectangle (12cm x 6 cm) and the color is biru mipa. Put the sea 2 cm from left, 2 cm from right, and 2 cm from up of the book. Now, the sea is yours! You own it. So, write your identity the middle of the sea including name, major, student identity number, and what group you are, there. Fulfil your cover with scientific atmosphere. You can draw for example: math equations, chemical reactions, physical tools, laboratory equipments, biological process. In the first page, write your personal description; name, address, personality, hobby, your group, etc. Oh, I'm almost forget! Draw your scientific atmosphere cover by blue ink pen.
